Subject: Re: another

This is not my area of expertise but as I recall they were known underground tank leaks in the DEP data base

I will ask one of our LSRPs about the stds

what is the source of the contamination? and what are the stds for linear construction?

mr ligget is on his way to japan.

btw...happy new year.

The woodward and currans report notes the line crosses 13 known contaminated sites.

how are these being addressed?
