**Subject:** A Question from a Commissioner

Peter:

What is the last "big" project SJ Gas did in New Jersey and how many jobs resulted? How many New Jersey residents were employed?

How many and who will be hired for the proposed pipeline and where will they come from?

the concern is that only workers from out of state will be hired (oklahoma).

I know this is not our issue...I know, but if you can provide me the info great.

Thanks.

Nancy
